

# PARASURE ORGANICS

Following the Global Pandemic of Covid-19, there is a heightened awareness of the need for personal protection and peace of mind in sanitising efficiently and effectively.

ParaSure Organic's was created by the parent company ParaSure who is one of the leading distributors of decontamination consumables used globally.

ParaSure Organic's is a unique and innovative company that was formulated to provide an environmentally friendly product that is efficacious against the spread of contagious diseases and stopping the spread from multiple different sources, including people, surfaces the environment, and other locations.

## OUR MISSION

Our Mission is to create a sustainable future by using solely organic products, recycled packaging, and reducing our emissions footprint.

We understand the importance of manufacturing and producing products with as little transport time as possible. This is why all of our products are manufactured in the UK.

We also pride ourselves on being PETA Friendly, HALAL friendly, and not using any alcohol in our products. We are passionate about creating a sustainable future.
