- Diagnostic capabilities:

- air removal

- wet steam

- super heated steam or presence of non-condensable gases

- Clear and accurate colour change

- Easy to interpret – easy to record

- Non-toxic, single use, disposable

- Lead free

Bowie and Dick Daily Steriliser Test (B&D Test) The ParaSure B&D test pack fulfils the requirements of both EN 285 and EN ISO 17665

- The test is performed at the beginning of each working shift in every vacuum assisted steam steriliser.
- This non-toxic test is not a test of sterility but a test of the mechanical function of the steriliser to ensure rapid and even steam penetration into a small porous load.
